

“OUR HEARTS REMEMBER” QUILT PROGRAM

GenCure Bereavement Program invites our tissue donor families to participate in “Our Hearts Remember” Memorial Quilt program, which was established to provide donor families the opportunity to honor their loved one through a quilt square tribute. Quilts will be displayed at all Memorial/ Remembrance events to serve as a message of love and gratitude. Squares will be sewn together to make full quilts as they are received. The quilt square submitted, whether simply or elaborately designed will represent your love, memories and tribute to your loved one. You can either design only the heart, only the square or both, with the heart attached to the square. Please use the pattern below. Please do not make it larger than the pattern provided or design can be altered. “Our Hearts Remember” quilts celebrate the decision to donate the gift of life.

-Please leave at least a half-inch margin so the quilter can attach the square to the quilt-

- 
- ♥ Cut an 8” X 8” inch square out of any type of material or color you wish. This will be the back as well as where you design your quilt square that will be sewn onto the quilt. It’s important to leave at least the ½” inch margin of extra material and only decorate within the dotted line.
 - ♥ Only decorate the area inside the dotted line. It is important to leave a ½” inch border around your design so it can be sewn onto the quilt with the other tribute squares.
 - ♥ You can use the Heart template if and as you wish on the quilt square. To attach Heart to quilt square, either sew, hand stitch or iron transfer to attach it on to the square.
 - ♥ You can use additional area around Heart, inside the dotted line, for additional designing space to add memories shared with your loved one, as well as donor’s name, date of birth and date of donation.
 - ♥ To create quilt square, you can use materials from your loved one that hold sentimental value such as your loved one’s baby blanket, jacket, tie or any other type of clothing.
 - ♥ To include a photo of your loved one, either transfer it directly to the fabric through an iron-on transfer.
 - ♥ You can use fabric paint, permanent markers, Fine Point Sharpie marker or fabric crayons to design.
 - ♥ Do not glue items. They can fall off in time.
 - ♥ Do not add any quilting, fill or backing to the quilt square.
 - ♥ One square per family will be placed on quilt.

Mail your quilt square in a Zip-type plastic bag, consent form and a short story about your loved one to:
